## A Working Cream Draft Stallion

March is the traditional time to sell tobacco produced in Maryland at the annual auction. At the Hughesville Maryland Tobacco Auction House, Wednesdays are set aside for the large local Amish community to bring their crop by horse-drawn wagon.

My stallion (C.W. Cream of Wheat) Jerry, is boarded on an Amish farm where he is worked daily. On Wednesday, March 12, 1997, Jerry and a Belgian gelding were used to haul a wagon with over 6,000 lbs of tobacco to the auction house. This entailed a 13-mile round trip, most of which was on a heavily traveled four-lane highway. By 7:00 a.m. that morning there were over 60 teams and wagons waiting to be unloaded, which involved a five-hour wait for Jerry. Just about every type of draft horse was there with this

being the first time that an American Cream was present. Jerry's uniqueness made quite a hit among the Amish and the other spectators, including a busload of Amish from Pennsylvania who had come down for the day to watch the Maryland sales.

Jerry is doing an excellent job promoting the breed with his easy temperament, confirmation and driving ease wherever he has appeared in Maryland and Delaware.

If you wish to witness the 1998 sale, contact me for dates and times.
